Subject: WINSTON April DPC Displays

Since New York Metro will be working the 670 April WINSTON DPC Displays (#505193) for the balance of 1996, I have extended the reporting code date until Dec. 27, 1996. Please use this code only to record placements in BPE--it is not to be used to issue payments since the brand has already closed out the April financials for this program.

Record placements for this display under: WIN APR $5 DPC. This should help keep the T19 report more accurate. Any payments should be issued against the current codes in the system.

Thanks!
Sharon Reid

Note to Don: Please advise your other regions not to post any activity against this code--since the entire area has visibility to these codes when we keep them only in the PC
